

Cameron Gingrich, B.Sc., B.A. – Senior Manager, Gas Services, has a decade of natural gas experience. Responsible for analytical support and in-depth customized data analysis, trending, and modeling. Focuses effort toward the North American Gas Strategies Retainer Service, multi-client studies, and custom consulting projects include: analysis of pipeline tolls, gas supply/storage load duration modeling, gas demand outlooks, and gas price modeling. Mr. Gingrich was the lead analyst on the Northern Gas and Evolution of Dawn Multi-client studies, and authored papers on: Summer Gas Storage Analysis, Canadian Gas Exports to 2025, Natural Gas Price Forecast to 2045, and LNG Outlook to 2035. In addition to the Canadian Securities Course, Mr. Gingrich has two degrees: a Bachelor of Science from the University of Alberta and a Bachelor in Arts in Economics from the University of Calgary where his studies focused on strategic energy and financial markets.

Dr. Lev Virine, P.Eng., Ph.D. – Manager, Gas Consulting, has over 2 decades of technical experience, economic evaluation of oil and gas reserves, decision and risk analysis, portfolio management, and oil and gas reserves management. He assisted leading national and international exploration and production companies in establishing reserves evaluation and decision analysis processes. Dr. Virine is the author of more than 40 scientific papers and articles, 7 patents, and two books. His current focus is gas production outlooks, gas supply decline analysis, and full cycle cost assessment. He has spoken at conferences and symposiums around the world. Dr. Virine received his doctoral degree in engineering and computer science from Moscow State University of Railway Engineering.

Zuzana Jurickova – Gas Analyst, for the past half dozen years, has assisted with projects in the areas of gas supply and demand research and forecasting analysis. Over this period she has worked on the Western Canada Reserve Replacement (F&D) Cost Study, a study on North American Cost Inflation for a major producer, and a study of North American pipeline expansions for a major steel producer. She is currently working on North American Gas Supply costs for 20 basins (and LNG). Prior to joining Ziff, Ms. Jurickova worked in corporate credit and finance. Ms. Jurickova obtained her five-year Degree in Economics from University of Economics in Bratislava, Slovakia.

Julia Sagidova – Gas Analyst, is responsible for gas supply (including LNG import/export analysis), gas demand, gas transport, gas storage, and gas price data management for the Gas Services team. Client project activity pertains to analysis of natural gas fundamentals and supporting analytics for North American regional multi-client gas studies, the North American Gas Strategy retainer service, and in-depth client consulting projects. Prior experience in petroleum economics and analysis of gas supply issues, along with pricing, forecasting, and analyzing gas market trends. Julia holds a Master's degree in Economics from University of Calgary.
