

Nalcor Energy Response to Grant Thornton Question 8.6

Question:

In "Nalcor's Submission to the Board of Commissioners of Public Utilities with respect to the Reference from the Lieutenant-Governor in Council on the Muskrat Falls Project" November 10, 2011 Nalcor describes five screening principles. How were the screening principles identified? Is there a more detailed discussion of the principles available? Were there any objectives or topics considered within each of the screening principles? For example, are there specific categories of environmental considerations included under the "environmental considerations" principle?

Response:

The screening principles were identified from engineering and industry experience.

A more detailed discussion of the principles, objectives or topics considered, in addition to the discussion within section 4 of the November 10, 2011 submission (NAL0019056), is not available.

Date Prepared: June 17, 2018
