Dear Mr. Michaud:

With regards to the 8 DVD video interviews submitted earlier in the Hearings Process that you are currently unable to place directly onto the CEAA web site we would like to advise the Panel of the following:

The DVD's were created by Mr. Oswald Michelin in the summer of 2009 as part of a SWASP Student Employment program. Mr. Michelin interviewed 24 residents of the surrounding communities of Mudlake, North West River, Sheshatshiu and Happy Valley-Goose Bay, asking them to discuss their views on the proposed Lower Churchill Hydroelectric Project, and from 37 hours of video tape these 8 DVD's were created.

The DVD Project was managed through a partnership of Grand Riverkeeper Labrador, Inc. and The Sierra Club of Canada, Atlantic Division.

The Video's are meant to be a public record for the Environmental Assessment of the Project, however, since the DVD's are too large to be placed directly on the CEAA web site, we will eventually find a way to separate each interview and hopefully place each one on a medium such as YOU TUBE, at which time we will advise the CEAA of the direct links to each interview. Meanwhile, we suggest that each of the 8 DVD's be listed separately on the CEAA site with a note that they are currently available at the home office of Grand Riverkeeper Labrador, Inc. at [REDACTED] phone 709-[REDACTED]164 or at the office of The Sierra Club of Canada, Atlantic Division, at [REDACTED] phone 902-[REDACTED]132
