Subject : DG3 wind assessment report draft

Hello Charles, are there any comments or items to take care of in the wind assessment? If you wish, I could call Brian Crawley at Nalcor to follow-up with him directly.

The Muskrat Falls project and the MHI name were in the local Winnipeg Free Press on Monday in the business section. No issues for me. The article dealt with low cost power to mining companies and I find the timing very interesting, as that was the start date for the Bipole 3 hearings.

Regards,

Paul Wilson, P. Eng.
