Subject: Re: Services Packages - Action Items from April 23 meeting
Date: Monday, April 23, 2012 9:39:18 PM
Attachments: @

Mark,

On reflection from today's meeting, I have taken the following decisions that will become the basis of forward planning and the DG3 estimate. These items are not open for discussion.

1. Total combined Nalcor / SLI vehicle fleet will be budgeted at 70 vehicles maximum. Price price of \$35k each, with annual O&M cost of \$12k for 5 years.
2. Estimated vehicle requirements for Laboratory contractor will be reduced by 30%.
3. Survey and lab contractor will each be responsible for their own vehicles which is to be included in the respective package.
4. Estimated cost for each of the laboratory and survey services to follow
5. Existing airfare cost assumptions to be remove. Airfare allowance per rotation across the Project will be \$1200 and to be included in each package, while EPCM and owner travel will be covered in their respective cost estimates.
6. Air Services package to have no value for aircraft charter or airline tickets.
7. Cost estimates for lab and survey services to reflect presented scope, while price to reflect third party service arrangement and standard contractor margins. Surveyors rates to be union rates, while lab techs to be based upon reasonable norms.

I would like to have the estimated cost for each of the laboratory, survey and third party inspection contract revised using these assumptions by noon on Thursday.

Jason
