The only overall concern was the focus today on muskrat falls only. Gilbert will refocus the panel on the total project in the morning. We don't want the panel to release mf but only provide a conditional release for gull island.

Thanks. Great work. Were they focusing on any sensitive points?

Subject: Panel presentation

I presented to the Panel this afternoon. I was in the chair for approx. 90 mins and answered a lot of questions from the Panel members and the intervenor representatives. The questions ranged from electricity rates, wind policy, coastal labrador, natural gas and smart grids. I feel that I was successful in answering all the questions.
