---

Charles, I believe I have sent you all the papers that were assigned to us, save one — [REDACTED]  
[REDACTED]

That said, the exports paper is also an early draft. We have not received information from Nalcor of any use. The most recent news is that Greg Jones is putting together a briefing note which will be given to us on Tuesday ( most likely). Nalcor has been very slow in their responses and it is clear that they will not share information with us without it being put through extensive filters. I think this is a significant problem and we should discuss this further.

The story on imports is also pretty much the same. We are due to get a note from Nalcor on Tuesday.

Paul
