Subject : RE: papers

Hi all,

Please use the following template for the new Page 2 that Charles requested. The listed documents, titles and order will likely change but will serve as a placeholder for now. Please let me know if you think anything is amiss...

This paper is one in a series by or for the Department of Natural Resources to inform the general public about the Muskrat Falls Project. Topics covered in this series include:

- . Energy Plan Overview
- . Electricity Demand Forecast: Do We Need the Power?
- . Electricity Rates Forecasting
- . Gull Island: Why not develop Gull Island first
- . Labrador mining and power - how much and where from?
- . Environmental Considerations
- . Legal Considerations (92A, Régie de l'énergie, etc.)
- . Small Hydro Development as an Alternative to Muskrat Falls
- . Wind Energy (Prepared by Manitoba Hydro International)
- . Natural Gas Generation from LNG Imports (Prepared by Ziff Energy)
- . Natural Gas Generation from Grand Banks Pipeline (Prepared by Ziff Energy)
- . Upper Churchill: Can we wait until 2041?
- . Electricity Imports
- . Export Markets

Corey K. Snook
 Manager, Electricity Industry Analysis
 Electricity and Alternative Energy Division
 Energy Branch
 Department of Natural Resources
 Government of Newfoundland and Labrador

 Subject: papers

In reading the papers I noticed that the cross reference to other papers was often without context of where these papers exist or why they were prepared. I think that its important to state up-front what we are doing and why. Please add a new page after the cover and include the following centered on the page.

"This paper is one in a series prepared by the Department of Natural Resources to inform the general public about the Muskrat Falls Project. Topics covered in this series includes:
