Subject : RE: Sanction date for the Lower Churchill

Tks Tracey. I think we need to rework the 6th bullet on page 1 of the SN that CFL(co) felt it could be interpreted that.....Also I think we need to really beef up the section on where we are now in the development of the project.

**Subject:** Sanction date for the Lower Churchill

Minister,

In relation to the question you asked today regarding the revised sanction date for the Lower Churchill Project, this is the email Charles sent to Kimberley yesterday on this issue.

The official sanction date remains as 2009. The Premier, Minister and Ed have communicated publicly that the necessary work to arrive at a sanction decision has not been completed and that it is more important to make a well informed decision than rush to meet a fixed date. Unofficially, the decision date has slipped by more than a year a could be as late as 2011.

Tracy
