Dorothy Dunderdale on Wed, April 4
at approximately 1:50pm

Dunderdale warned me that "~~was~~" or "I" am I am fed up with the Board. I have had enough". Fred Martin was trying to interfere with Govt.'s decision to hire MHI. She warned me to pull out to it right away, I advised her that this was in my opinion - an ethical issue arising from MHI decision to enter into a contract re: Municipal Falls without informing the Board which has already engaged MHI on the issue - that this involved Professional Ethics for Professional engineers in Manitoba. She told me that there were no ethical issues and for the Board to cease interfering in ~~the~~ whether I worked deal with it
