**Subject:** Six themes - think we need to discuss these.

These were the areas Brian Crawley was proposing. Think we need to have more discussion. Perhaps we can grab 10 min today at end of our meeting with Mark.

The business case for Muskrat Falls

Big picture benefits of MF

Developing the energy warehouse

Quebec - going around.

NI Benefits - jobs, tax, etc.

"hit" squad

Other ones we need to discuss:

Do we need power? Meeting growing business and industrial needs.

Alternatives - why MF is the best of the alternatives

electricity rates - stable, not oil dependent.

Dawn S. Dalley

Vice President, Corporate Relations

Nalcor Energy
