Subject: Minister Request

Hi guys

Minister Marshall has asked to be provided with the following financial information:

1. A breakdown of budgeted project costs by component showing total project costs along with the portion which is the responsibility of Nalcor / NL;
2. For the portion of each that is our responsibility, the details of the funding split between debt and equity;
3. For the equity requirement, the split between what is already in and what is still required;
4. For the anticipated future equity requirement, the expected timing of the requirement broken down by government fiscal year; and
5. The most recent update on expected total project costs by component vs. budget (DG3?), if available. If not available, a reason why might be helpful along with an indication of when it might be available.

Needless to say, it would be appreciated if this could be provided expeditiously. Thanks.

Paul
