Gilbert and I met with M Saade, Nik Argirov today (Business Cards attached)

key points being

MWH want to help us in any way possible

MWH are willing to provide experts to sit on Expert panels

MWH are willing to provide personnel for any period we wish -months or years and that these people would not be under the MWH banner but seconded to the Project as integrated Nalcor team members.

There were no commitments made from our side - but we would be open minded and if we have a position we cannot fill we may be in touch , similarly wrt the expert panel members

I also emphasized (twice) that they should not chase down Ed, Gilbert or me on this that they should contact Pat Hussey - he is the right person and is the contact for supply chain related matters

This can be another source of qualified people for us and something we may try to set up with Hatch also.

Regards Paul
