Well if he was added he can be removed - I do not believe he adds any value so when we get through the IE report we should get Loucks and Rey removed from the team. Rey because of his poor organization and general performance and Loucks because he is argumentative and antagonistic towards Nalcor

Agree with 1. On 2, I believe Loucks was added after so is authorized.

A couple of observations

1 There is nothing in the Scope Of Work which indicates that the IE should provide unsolicited recommendations and certainly not as per the draft IE report that these recommendations are worded as instructions with timelines to deliver

2 Jim Loucks is not a named person in Schedule B nor is that person shown on the Org chart- so I vote we ask him to be removed from this work- he has not been authorised
