**Subject:** IE Report Checkpoint Call - Recap  
**Date:** Wednesday, November 27, 2013 5:40:12 PM

---

Hi Nik

Thanks for the your time on the call today. Just wanted to do a quick recap, particularly for the benefit of those who weren't able to join:

You indicated the updated sections on the North Spur, Capital Costs and Schedule will be delivered to Canada and Nalcor later tonight/early tomorrow morning our time (due to time change to Pacific).

You indicated the balance of the IE report will be delivered to Nalcor and Canada by Friday.

Paul had made the suggestion that if an Executive Summary could be provided prior to Friday that would be very beneficial, particularly to Canada. You will try to facilitate that.

We are all very clear on the timeline for delivery of this report given that the plan is to have Canada issue the FLG this coming Friday. Not sure where Rey got mid December?

I would also make the suggestion that if sections of the IE report other than those noted above are completed prior to Friday, you send them along to Canada and Nalcor for review.

If you need any assistance or clarification from the Nalcor side as you continue to work through the report, you know where to reach us at any hour.

Thanks

Jim
