Hi Alison

Left you a VM this morning, but just wanted to give you a heads up in the event we don't connect, that you will likely get a call from MWH later today. When Nik, Gilbert, Paul and I spoke last week Nik advised that MWH was going to reach out to Gilbert on the issue. Apparently that's going to happen today. The consensus of the discussion last week was the decision ultimately resides with Canada as they are the "client" of the IE through the FLG arrangements. On that basis, Gilbert was going to refer MWH to you. Nalcor would obviously work with Canada through the process. As I had indicated previously, we are supportive of finding a path forward that doesn't create any conflicts or a situation where we need to "start over" with a new IE. Give me a call on my cell when you get a chance.

Thanks

Jim
