Subject: SLI MFI Scott Thon Interview with Commission - follow-up

Good afternoon, Barry.

I received the following from Scott Thon in response to your questions to him during your interview on Thursday. I have redacted email addresses for his corporate counsel. The body of the email is as he sent it to me.

I trust this is satisfactory.

Sheilagh

Subject: Re: EXT - Document Index - Interview with commission counsel - Commission of Inquiry into the Muskrat Falls Project

I have had a chance to review the two documents that I undertook to review in the interview today with Commission counsel.

Regarding document 7, the e-mail dated April 24, 2013 from Robert Card, page 1 was written by me and I agree with its contents. As page 1 of the email notes, pages 2 and 3 were written by SNC-Lavalin's Project Director Normand Bechar. Pages 2 and 3 are consistent with what I heard from the SNC-Lavalin team throughout my time on the project. That said, much of pages 2 and 3 relate to assessments prior my time on the project.

Regarding document 14, the notes from my interview with Grant Thornton, I agree they represent a fair record of the interview with one clarification. On page 2, the notes record that "I remember reviewing it a number of times I remember signing it off" and on page 3 the notes record, "I definitely reviewed the report I believe that I signed it at the end of the day." To clarify, I did review the report. I did say I was okay with it. I do not recall whether I physically signed it.

I also note these notes of the interview are repeated on page 126, lines 29-33 of the official Grant Thornton report.

Thanks,
Scott Thon
