FYI- Ed Martin will be meeting with Bob Card later this week

I also told Scott that I want to reach out to you both because I want you to feel more included in the project- I know you have flagged some project risks internally and I want to share with you the risk mitigations that we have kicked off - My door is always open guys and I value your knowledge and experience - as I do with the other Managers. So pop in and talk to me on the big picture aspects. our biggest challenges are ahead of us.

I spoke to Scott just now and asked him if the latest allegations and media regarding SNC will result in any ripples that could touch LCP or the folks we have on the Project from SNC. He assured me that this will not be the case and the Hydro division is not involved in the International Division activities which was involved in the alleged wrong-doings - the International Division has been disbanded.
