Hi Gents

I agree with your scoring system for the project team. I do have a question on how we scored the involvement/support of home office and I have a suggestion for adding to the spreadsheet the evaluation for the H&S/ Environmental and QA

folks. We can discuss Tuesday, together with the final wording I wish to record related to this element.

In the meantime, can one of you please send me the spreadsheet electronic copy. I should have taken it when you offered it last week!!!

Cheers Ken
