Ok. I spoke with Jim/Jason late last week - asked if we could have something ready for review with Ed this week. Jason's view that the report being prepared for the Feds (as required for FLG) would suit the purpose, but that report not ready yet. In general, both Jim and Jason wanted to ensure Ed was aligned with providing this level of detail before putting any work into it. Just wanted to ensure you know where that effort stands before meeting this afternoon.

You owe it to yourself, and your family, to make it home safely every day. What have you done today so that nobody gets hurt?
