You owe it to yourself, and your family, to make it home safely every day. What have you done today so that nobody gets hurt?

I'm not sure if you've gone back to Charles yet with any comments. Overall, I thought it was a much better document.

Two small comments:

- 1) on page 5 there is still a reference to claims - note sure if this is significant or not?
- 2) I've already provided the updated text as requested on the QA section as noted.
- 3) this is the first breakdown of the three project components for LIL/LTA/MF since Jun 2014. Is anyone going to give a heads up to Emera when the report is issued and let them know this info is in the report? I could do it as a Communications to Communications function letting Emera NL know that the report is public.

Charles,

Attached is the latest draft of the report. Could you please share with Ed, Gilbert and cc Karen for final review and comments.

We'll be moving into production tomorrow. Will need any comments back early in the AM.

Thanks

Craig
