Dear Mr. Martin,

Company confirms its availability to attend a meeting on 04-May-2016 as proposed in Contractor's letter. Company requests that Contractor provides, in advance of the meeting, a list of objectives, an agenda, a list of Contractor's personnel who will participate and the location details.

Company understands from the Senior Contractor Management email of 25-Mar-2016 that in early April there was to be an internal review of the status of the action items resulting from the audit (the action items attached to Contractor's letter). Also, Company understands that Contractor's Global Construction Lead would be visiting the sites. Given that the planned meeting is still more than 2 weeks away, Company would like to have an interim status update on the action plan. Specifically, Company requests that Contractor confirm, by Friday 22-Apr-2016, which action items have been completed and which remain to be completed, since many of the due by dates have already passed.

Company looks forward to discussing each of the action items in detail during the 04-May-2016 meeting.

Regards

Darren DeBourke, P. Eng.
