Absolutely. Will be a bit later this afternoon if that's ok.
Have to get back to Groupe Gilbert for a bit post Astaldi
weekly meeting.

Like to chat about Turpin and 0008/0009 a bit more too.

Scott - this person is high caliber and wants to come on the job at the MF site. Ed speaks very

highly of him. Jason and I chatted with him today.

Different (much higher) caliber than Flavio. Ed has worked with him for years. He is an independent but would come in through PMX. Ed is excited that he may come on the job. I am considering him for ACM and moving Ed to CM. He and Ed would work out the rotations etc.. - this would free me up a lot. Let's chat later.

Jason - I would like for you and I to have a chat with Peter. Are you available to do this on Friday ?

thanks

Hi Ron;

I have attached the resume for one of our Senior Project Managers, Peter Tsekouras, for your consideration.

Peter is a civil engineer with over 32 years' experience in the areas of project and construction management. We have worked with him prior to forming our company since the late 1990's and he has worked as part of our firm since shortly after we went out on our own in 2007. He is a key member of our PMX team.

Peter is a skilled and effective manager and a real team player. He brings a diverse range of experience having worked in the worlds of general contracting and as an owners representative. His experience includes large and small projects as well as projects ranging from complex hospitals to civil construction. His civil experience includes construction of bridges, slip formed silos, as well as hydroelectric rehabilitation.

Peter also brings a wealth of knowledge in the areas of managing design-build-finance-maintain (DBFM) projects that could be readily leveraged with some of our large EPC contracts.

He is very interested in our project and I think he has the ability to make a positive contribution. I would be pleased to set up a call with him at your convenience so that you could get a better understanding of his skills and experience first-hand.

We can discuss later in the week when I am on site.
