---

Understand from Anoop you're at a conference the next few days, but spoke with him today about finding a way to have NL "piggy back" off the IE process/information already in place as opposed to them trying to engage MWH directly or going out and hiring a separate "independent expert" as part of the MF oversight committee they are setting up. Anoop said he was going to follow up with you and then we'd connect early next week. We met with NL and E&Y yesterday, who've they engaged to provide advice on this front....some concerns on our side they're leading NL down the wrong path and it could create challenges for all of us. Just wanted to give you a heads up....
