suggest the MFL dates be communicated today

Definitely

was the MHI guy's name David Bowen ?

Fri, Mar 22, 5:03 PM

Manitoba Hydro PM for Keyask is Dave Bowen. He's now promoted to project director

k - I am looking for info related to package sizes - I'll send him an e-mail now

They've got the big contract with BBE.

I just sent an e-mail re salary increase required for PDT

Mon, Mar 25, 3:28 PM

JD is talking about you now

Tue, Mar 26, 11:54 AM

You doing ok? How's Normand?

yes looking at Normand - he had a poke at me - but most of what he said can be refuted

[Redacted]

cheers

Learmonth just said you had no hydro experience

I am absolutely a target for them

talking about Gervais now - I need to understand that one better before I testify

Gervais was entrenched in a Quebec culture as was Normand and they couldn't wrap their heads round the approaches we needed to take here. It wasn't an SNC approach. It was the two of them. Gervais was focused on providing soup for everyone and curling bonspiels and Sundays off and drinking in camp.

[Redacted] It might also be helpful to point out Normand and SNC weren't aligned. His views are his own

The first director Roger Nicholl had no hydro

I copied you. I can't remember the circumstances around Gervais' departure

Tue, Mar 26, 2:29 PM

Normand just went on a rant about you forcing SNC people to go to site against thier wishes

Tue, Mar 26, 7:14 PM

Did you see the back of Normand's cross with Budden. I heard he took a hard run at me. Ed reaches out to Paul about it

yes - don't worry - I'll get Normand

Thu, Mar 28, 6:38 PM

Peter Mulcahy is tarred with the same brush - trust me

I know. I've been thinking about it all afternoon

I have not mentioned anything to Jeff or to Ken McVlintock - we need to caucus first tomorrow - me, you, Pat

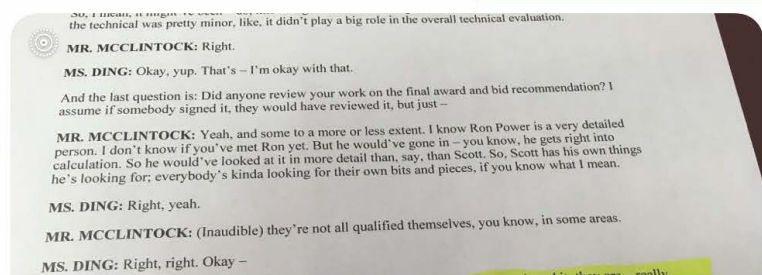

Agreed. And Paul

have you heard from Pat ?

No. He left early because he was feeling poorly

I just sent an e-mail with a one page excerpt from Ken McClintock's interview notes - it talks about John and Greg not signing the CH0009 recommendation

I don't have my email. What did he say

I knew it was there. I'll find more tomorrow.

Greg prepared a memo for me a couple of weeks ago to address the queries of lack of geotechnical information. He got his knuckles rapped by SLI counsel when he did.

He's covered all the issues

Do you have the memo ?

I just asked Trina to dig it out for you

That memo is what prompted the note from Peter about speaking through counsel with SLI

Wed, Apr 3, 9:43 AM

Do you want me to participate in the intake discusdion ?

or are you ok for now ?

Yes please

Think tank
