Paul

The EOI is up to date and ready to put on the street. We do still have to finalize the list of targeted companies.

I agree with this approach, this was a CEO deal and we need to get Ed to understand why they cannot be considered for more scope when they are not able to handle current scope. For the sake of a few days lets walk this through with Ed first and make sure we have complete alignment

Subject: Re: EOI for CH0009

I have told Jennifer that we need to discuss this as like the North Spur, it is problematic given that their base scope is not being executed to our satisfaction. We are going to meet with Ed on Thursday and will explain this to him. Based on his direction we will either call and confirm with Jennifer on Friday or Ed may wish to deliver the message himself on Tuesday. His call but either way this will be done by next Wednesday and maybe by this Friday. Are the documents ready to go?
