Subject: EY

Julia

Although I am not promoting another review, I understand that EY may be required to carry out a review of the QRA cost and schedule. The IE is coming next week (Tuesday) to do the same thing on behalf of Canada and if NL Government intend or require an EY review of the QRA then this would be sensible to be done at the same time as the IE, (it would also be prudent to ensure some degree of alignment in the analysis and final reports) - also we simply won't have time or resources to do otherwise.

Could you please check if GNL require an EY review of the QRA and if so can you contact Mike Kennedy to organize a resource to have a person here in St John's next week .

We would appreciate feedback on this so we can organize ourselves accordingly

Regards Paul

Paul Harrington
