On reflection I decided that it would put the IE in an untenable position with Canada if I was to alert him to the upcoming Project Update and Astaldi situation - consequently I decided not to do so- I will brief him and Canada together as part of the Project Update rollout.

Regards Paul

Paul Harrington

Subject: RE: October trip

Thanks Paul,

Yes, I took one week and went to Bulgaria. It was actually a working vacation with some personal business issues to resolve as well.

Oct 18 sounds good as I have couple of appointments in week of Oct 5th (actually mainly Oct 6) that I don't want to miss.

Anyhow, we will discuss this on Sept 21.

Regards,

Nik

Hi Nik

Welcome back - hope you had a good vacation.

We have been dealing with a number of issues lately - the Innu Protest was something that took some time to resolve.

I know you are coming to St John's 21st September and that would be a good time to firm up the plans for October - I am unsure about the participation of Ed Martin this time but we will move ahead in any case- the original plan was to go the last two weeks in October - this map may help to select some places to visit

Assuming a 18th Oct start we could take 7 to 10 days to visit the following

UK - Alstom Stafford - GIS, HVDC transformers; Thyristors

Germany -Trash rack cleaning machine

Switzerland Gen CCB's

Steve

can pls you work with the Component Managers and check if there is anything worth visiting in October at the Europe sites- let me know what you find out

Subject: October trip

Hi Paul,

Back in July, during the site visit, you mentioned about a trip to Europe for factory visits that has been planned for October.

Do you have any further details about it? I'm trying to plan my October activities and would appreciate an update.

Regards,

Nik
